Hands-on clinical training	3 days — Basic & Advanced Injectables, PRP	3 days clinical + 2-day Master Injector Program	3 days clinical + 2-day Master Injector + 1-Day Cadaver & Ultrasound
Virtual interactive classroom	8 hours, live online	8 hours, live online	8 hours, live online
Certification path	Online exam → Official CBAM Diploma	Case submission → Article review → MCQ → OSCE	Case submission → Article review → MCQ → OSCE
Certificates awarded	1 Certificate Diploma	2 Certificates Diploma + Board	3 Certificates Diploma + Board + Fellowship
Installment plan	6 weekly payments of $1,400	6 weekly payments of $2,100	6 weekly payments of $2,500
Best for	Physicians starting in aesthetic medicine who want a solid injectables & PRP foundation	Practitioners seeking a formally examined credential and advanced injector techniques	Practitioners seeking the highest CBAM credential with cadaveric & ultrasound mastery

All three programs are hybrid: online modules can be completed at your own pace, and the hands-on component is delivered in person at CBAM's Qatar training center. Group booking of 2 or more registrants receives an additional 10% off each seat.

Eligibility

Licensed physicians (MBBS, MS/MD, DNB, MCh), Dentists, General Practitioners, and Oral & Maxillofacial Surgeons.

Accreditation

DHP-approved; delivered at Al Waab Medical Center; issued by CBAM, Canada.

Format

Hybrid delivery — online materials, theory via Virtual Interactive Classroom, and hands-on training.

Hybrid Clinical Training

Hands-On Clinical — 3 Days

Day 1 · Basic Injectables

Neurotoxin — forehead, glabella, crow's feet & bunny lines; dosing & injection mapping

Filler — lip shaping & volume, midface (cheek) contouring; facial assessment & safety landmarks

Complications — recognition & early management of Botox and filler complications

Day 2 · Advanced Injectables

Neurotoxin — gummy smile, nasal tip lift, DAO, mentalis, perioral lines, platysma bands; migraine protocols

Filler — cannula techniques, midface volumization, chin & jawline contouring, perioral rejuvenation

Day 3 · PRP + Regenerative Medicine

Growth factors & mechanism of action, extraction & preparation, manual/pen/gun injection techniques

Applications for face, skin & hair; non-crosslinked HA; mesotherapy; exosome therapy

Virtual Interactive Classroom — 8 Hours

Delivered online, live — a full simulation of the in-person classroom experience

Facial anatomy, assessment & injection mapping

Basic & advanced neurotoxin techniques & dosing

Basic & advanced filler techniques, including cannula approach

Safety, complication prevention & management

Small-group training

One expert instructor per station · all models & products provided

Group of 2+ → extra 10% off

PROGRAM 2 · BEST VALUE

Board Certification

Everything in the Diploma, plus 7 additional online courses and a 2-day Master Injector Program, completed through a formal Board examination pathway.

PAY IN FULL	REGULAR PRICE	INSTALLMENTS	INCLUDES
$12,000	$12,600	$2,100 / week × 6	2 Certificates

17 Pre-Recorded Online Courses

- Basic Injectables
- Advanced Injectables
- PRP & Basic Regenerative
- Laser & Microneedling
- Facial Anatomy
- Non-Surgical Rhinoplasty
- Lip Beauty Masterclass
- Jawline & Chin Course
- Peri-Orbital Course
- Temple & Forehead Course
- Non-Surgical Thread Master
- Basics of Sculptra®

2-Day Master Injector Program

Facial Ultrasound Basics — ultrasound theory & image-guided injection training

Periorbital & Tear Trough Mastery — anatomy review & safety-focused injection techniques
